## **Oxford Preparatory School Demonstrates Outstanding Academic Outcomes During The 2021 – 2022 School Year**

With the recent release of student performance results from 2021-22 school year, results for Oxford Preparatory School (OPS) revealed outstanding academic outcomes despite COVID pandemic challenges. The accountability report for the 2021-22 school year is the first since 2018-19 to feature all components of the state’s accountability framework, including the calculation of School Performance Grades, in which Oxford Prep received an overall school performance grade of “B – 75.8”, the highest in school’s history since opening in 2013. In addition, Oxford Prep met overall school academic growth expectations, as well as growth expectations for each reported subgroup.

Oxford Preparatory School earned the highest grade level proficiency (75.7%) composite score for all End of Grade (EOG) and End of Course (EOC) assessments and the highest % of 11th Graders that met the ACT UNC minimum composite (60.4%) out of school districts/K – 12 schools and charter schools in Franklin, Granville, Vance, and Warren Counties.

“We are thrilled about the promising results that provide strong evidence that we are closing achievement gaps,” OPS Executive Director, Andrew Swanner remarked. While statewide EOG/EOC performance in all subjects in statewide performance showed sizable achievement gaps (31 points between White and Black students, 24 points between White and Hispanic students, and 26 points between Non-Economically Disadvantaged Students and Economically Disadvantaged Students), Oxford Prep student performance revealed far smaller achievement gaps (10 points between White and Black students, 7 points between White and Hispanic students, and 10 points between Non-Economically Disadvantaged Students and Economically Disadvantaged Students).

“These outstanding outcomes are a result of the efforts of our faculty/staff, leadership team, Board of Directors, students, and parents that have bought into our college-prep mission and made a serious academic commitment. I couldn’t be more proud of our school community that has overcome so many of the obstacles that we have faced during these past few years,” Swanner remarked. “We are continuing to make additional investments and improvements to address any learning loss as a result of the obstacles during the past few years. We hope to improve upon these outstanding results to continue to demonstrate that our school is an excellent college-prep public charter school benefiting our community.”

***NURTURING POTENTIAL - INSPIRING EXCELLENCE - DEVELOPING LEADERS***

## **About Oxford Preparatory School**

Oxford Preparatory School (OPS) is an independent, K – 12 public charter school located on Landis Rd. in Oxford. By combining a rigorous college preparatory curriculum, service to the community, and an emphasis on the arts, OPS employs a unique approach to education focused on graduating well-rounded students who will someday become the future leaders of our community, nation, and world.
